

RANDWHITNEY

Packaging Your Ideas in Ours.™

Case Study

“END-2-END”

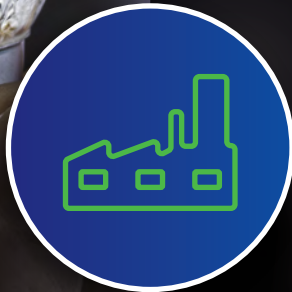

CHALLENGE

Our customers have locations all over the country. As a result, they order packaging from multiple different facilities and have to coordinate with a lot of different people. This makes for an unnecessarily complicated process.

SOLUTION

Our team helps consolidate our customers packaging needs to provide a truly end-to-end solution. We manage the entire process through our web-based platform to provide our customers with a transparent view of the packaging used in every facility across the country.

RESULTS

Rand-Whitney coordinated the design, supply, and shipment of packaging for 24 of our customer's locations. By centralizing packaging services, we were able to implement programs that saved them \$1.4 million, while alleviating the headache involved with having multiple vendors!

**\$1.4
MILLION**
in Savings
